

İŞIKLI TAŞ SİSTEMLERİ

TEKNOFORRS
TEKNOLOJİ ve LED AYDINLATMA

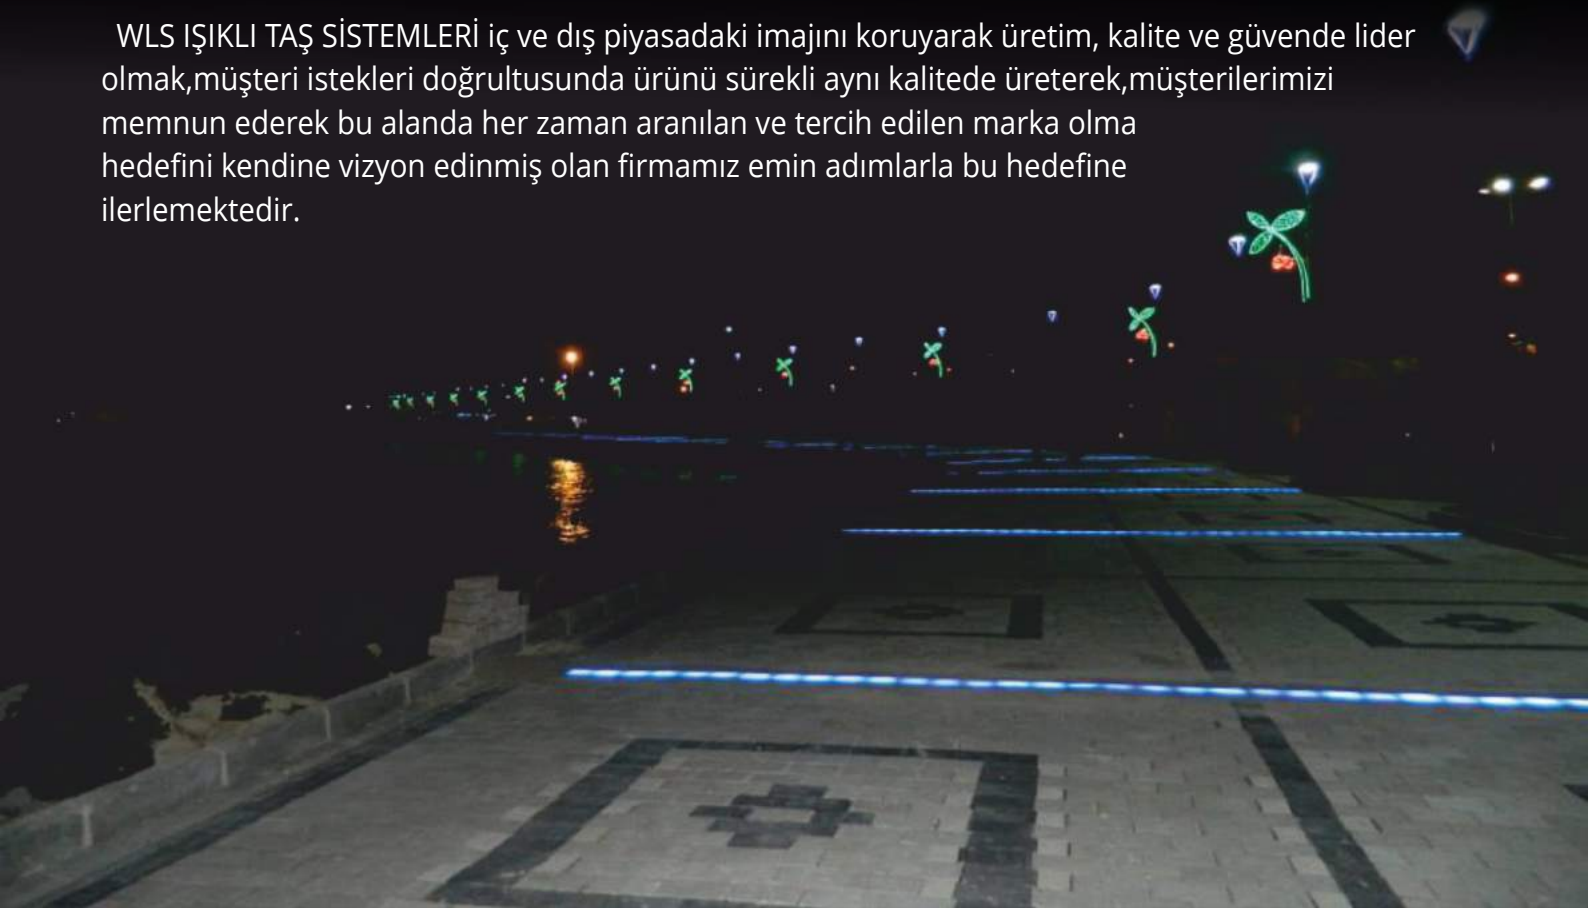

Peyzaj dünyasının ışıltılı yüzü olmak ve bu alanda her zaman aranan ve tercih edilen marka olmak hedefi ile yola çıkmış olan firmamız;2007 yılında Ar-ge faaliyetlerine başlamıştır.

Ar-ge çalışmalarını tamandıktan sonra, 150m2 kapalı ve 50m2 açık alan olmak üzere toplam 200 m2 den oluşan tesislerimizde 2009 yılında üretime başlamıştır.

2011 yılındaki AR-GE çalışmalarımızın bir neticesi 2012'nin yeni yüzü taşlarımızın hem gündüz hem de akşam aynı renkte olmasıdır. Gündüz ışık kaynağına enerji verilmeden kırmızı bir taş akşam ise ışık kaynağına enerji verilerek kırmızı yanması sağlanmaktadır.

Ürün yelpazesi olarak Türkiye ve dünyada tüm belediyelerin yaygın olarak kullandığı taşlar ; kilitli parke ,S-parke , dikdörtgen , küp , bordür , Arnavut , standart taşlarımız olup bunların yanında özel üretimimiz mevcuttur.

WLS IŞIKLI TAŞ SİSTEMLERİ iç ve dış piyasadaki imajını koruyarak üretim, kalite ve güvende lider olmak,müşteri istekleri doğrultusunda ürünü sürekli aynı kalitede üreterek,müşterilerimizi memnun ederek bu alanda her zaman aranan ve tercih edilen marka olma hedefini kendine vizyon edinmiş olan firmamız emin adımlarla bu hedefine ilerlemektedir.
